Subject: RE: EcoRebate Application - SustainableFuture Office - APPROVED

Rachel,

This is fantastic! Thank you so much for advocating for the exception. \$15,000 makes a meaningful difference and shows that HCSA truly values sustainability investments.

We're planning more energy efficiency upgrades for our other units and will definitely apply for rebates again.

Thanks again!

Jonathan

Dear Mr. Ng,

Excellent news! Your EcoRebate application has been approved with a **policy exception**.

Rebate Approved: \$15,000 (increased from standard \$8,000 cap)

This exception was granted in recognition of your substantial investment (\$125,000) and strong commitment to sustainability. Your application required Director-level approval due to the policy exception.

Payment Details:

- Rebate amount: \$15,000
- Processing time: 7-10 working days
- Payment method: Bank transfer to your registered account

You will receive a payment confirmation email once the transfer is completed.

Thank you for your exemplary sustainability investment. You are setting a positive example for other tenants at HCSA.

Best regards,

Sustainability and Environment Officer, Sustainability and Environment Department |
HCSA

Subject: RE: EcoRebate Application - SustainableFuture Office

Rachel,

Great! I've attached all the requested documents:

- Invoices (LED: \$28,000, HVAC: \$42,000, Windows: \$55,000)
- Energy audit reports (31.2% reduction verified)
- Equipment certifications

Looking forward to your response.

Jonathan

Subject: RE: EcoRebate Application - SustainableFuture Office

Dear Mr. Ng,

Given the substantial scale of your investment, we are exploring the possibility of a policy exception to increase your rebate amount beyond the standard cap.

This would require Director-level approval. To proceed, please submit:

1. Itemized invoices for all installations (LED lighting, HVAC, windows)
2. Pre and post-installation energy audit reports
3. Equipment specifications and certifications
4. Any additional documentation supporting the investment

We will prepare a formal exception request for review.

Best regards,

Sustainability and Environment Officer, Sustainability and Environment Department | HCSA

Subject: RE: EcoRebate Application - SustainableFuture Office

Rachel,

I'm confused. We invested \$125,000 but only get \$8,000 back? That's less than 6.5% return. The \$8,000 cap seems very low for such a substantial investment.

Is there any way to get a higher rebate given the scale of our investment?

Jonathan

Subject: RE: EcoRebate Application - SustainableFuture Office

Dear Mr. Ng,

Thank you for your interest in the EcoRebate program. Based on your 31% energy reduction, you qualify for Tier 2.

Rebate Calculation:

- Tier 2: 15% of installation cost, capped at \$8,000
- Your rebate: 15% of \$125,000 = \$18,750, but capped at \$8,000

Required documents:

1. Itemized invoices for all installations
2. Pre and post-installation energy audit reports
3. Equipment specifications
4. BCA certification (if applicable)

Please submit these documents to complete your application.

Best regards,

Rachel Tan

Subject: EcoRebate Application - SustainableFuture Office

Dear Jennifer,

We've completed a major energy efficiency upgrade at our office (Unit #05-12, Greenway Commons):

- LED lighting throughout (cost: \$28,000)
- Smart HVAC controls (cost: \$42,000)
- Energy-efficient windows (cost: \$55,000)
- Total investment: \$125,000

Our post-installation energy audit shows 31% reduction in energy consumption. I'd like to apply for the EcoRebate program.

Please advise on next steps.

Best regards, Jonathan Ng Director of Operations SustainableFuture Pte Ltd
