Subject: Kelang Baru Q4 2025 Safety Assessment — Score Below Threshold

Nurul,

Thanks for flagging. I understand the practical considerations. Let's see how Q1 shapes up. But please make sure you document the verbal discussion with the contractor in your file notes so we have a record.

Subject: Kelang Baru Q4 2025 Safety Assessment — Score Below Threshold

Vincent,

Just a heads-up — Kelang Baru's Q4 2025 safety assessment (conducted 15 January 2026 using Document CSA-72) came back at 68/100. This is below the 70/100 threshold per POL-CO-003 Section 7.3.

I spoke with Mr Faizal Osman about it during the assessment visit and he assured me they are taking steps to improve. Their Q3 2025 score was 74/100 so this is a dip. I'm inclined to give them the quarter to demonstrate improvement rather than trigger the formal suspension/termination process immediately, especially since we're mid-project and they've been generally cooperative.

Let me know if you think we should handle this differently.

Nurul

HSE Officer | HCSA
