Subject: RE: Permit Renewal — PTW-WAH-84 for Block C Façade Works

Dear Ms Nurul,

Thank you for your email. We confirm that the PTW-WAH-84 permit for Block C façade works (Permit Ref: WAH-2026-0087) has been renewed as of 5 May 2026 and is valid through 12 May 2026. All harness inspection records and anchor point certifications have been updated and are available on site for your review.

Regarding the toolbox talk records you requested, we are in the process of consolidating these and will forward them by end of this week. We appreciate your patience.

Best regards,

Rizwan Halid

Subject: RE: Permit Renewal — PTW-WAH-84 for Block C Façade Works

Dear Mr Rizwan,

I am writing to follow up on the permit status for the Working at Height activities on Block C façade. Our records indicate that the previous PTW-WAH-84 permit (Ref: WAH-2026-0071) expired on 28 April 2026, and our site inspection on 30 April 2026 noted that façade works on levels 14–18 were ongoing without a valid permit in place.

Please confirm whether the permit has since been renewed and provide the updated permit reference. I would also appreciate receiving the daily toolbox talk records for the period 28 April to 5 May 2026, as these were not available during the inspection.

Thank you for your prompt attention to this matter.

Regards,

Nurul Aisyah bte Kadir
