Subject: RE: Toolbox talks - formal notice of non-compliance

Hi Marcus,

I disagree with the report. We did toolbox talks almost every day. Maybe we didn't fill the form but we did do it verbally. Our foreman Rauf can confirm.

Going forward we will use the form. I attach our own record which my foreman kept in a notebook. Its not official format but shows we did the talks.

(Attached: handwritten log scanned, dates 3 Mar – 7 Apr 2025)

Dear Mr Ahmad,

Thank you for your query. Following a review of site safety records for Site B, we have identified a sustained pattern of non-compliance with the daily toolbox talk requirement.

Under POL-CO-003 Section 7.2 and SOP-CO-003 Section 2.1, all contractors are obligated to conduct toolbox talks every workday — minimum 15 minutes — with mandatory attendance documentation on Form TT-75. Your contractor's records show an average completion rate of approximately 58% over the past six weeks, and attendance sheets are largely absent.

This constitutes a formal compliance breach. You have 5 business days (by 15 April 2025) to respond:

1. An explanation for the non-compliance
2. Any records you hold that may differ from those on our file
3. A corrective action plan going forward

Please note that continued non-compliance may result in a contract review.

Subject: Toolbox talks - question about our obligation

Hi Marcus,

We are the contractor for the M&E package at Site B. Someone from your team said we have to do these toolbox talks every single day? We been doing it maybe 3-4 times a week. We thought that was ok.

Also we do it informally lah, no form or signature. Is that a problem?
